

INSTRUMENT TECHNOLOGY, INC.

MODEL 177306 LED Gas Tank/Contraband Scope

When law enforcement agencies need a scope that can gather clear visual evidence, withstand severe field conditions, and yield clear, bright visual images, the ITI Integrated LED Illuminated Fiberscope gets the job done.

Featuring LED illumination that eliminates the need for external light sources and the patented ITI **PROTECHT**® over-torque protection system that nearly eliminates articulation failure common with lower quality scopes, the LED Fiberscope is easy to use and built to last.

SCOPE SPECIFICATIONS

Mechanical	
Outer Diameter	6.0mm (.236")
Length	203cm (80") additional lengths are available
Probe Jacket	Tungsten
Articulation	2-Way
Optical	
Illumination	Integrated LED Light Source
Depth-of-Field	10-100 mm (.4-4.0")
Field-of-View	60° or 100°
Power	
Lithium Ion Batteries	

Features:

- Integrated LED light source with adjustable light output intensity
- Compact handle accommodates all users
- No assembly required
- 2-Way **PROTECHT**® articulation
- No bulb replacement necessary
- Lightweight
- Protective Case
- Common Point Ground
- 1-Year Warranty

Kit includes:

Model 177306	Fiberscope Lithium Ion Battery Battery Charger Operator's Manual Carrying Case 110V Adapter Vehicle Power Adapter Protective Guide Tube
